RE: Pacific Sport Institute

Dear Roger.:

I am writing to you in support of the Pacific Sport Institute.

Triathlon Canada, the National Governing Body for the Sport of Triathlon and Duathlon, has partnered with PacificSport in the development and operation of the National Triathlon Centre, in Victoria, for nearly ten years. Through the centralized approach to training and coaching resources, our partnership has garnered Gold in the Sydney Olympics and double Gold in the Manchester Commonwealth Games as well as countless other podium performances at World Cup Races around the world. Our mandate to develop and support Olympic and World Champions in triathlon is greatly dependent upon the continued relationship with PacificSport and our ability to sustain international level coaching and state of the art sport science programming.

On behalf of Triathlon Canada, I applaud your foresight and progressive planning in developing the Pacific Sport Institute. The impact from the Institute will be far reaching as athletes and coaches from across the country benefit from its programming and support.

Triathlon Canada is committed to assisting all partners associated with the Institute in furthering the reach of this project. We look forward to working with you and the various other partners associated with the Pacific Sport Institute.

Please feel free to contact me at any time should you wish anything further from us.

Kind regards,
